

## **KUDER Career Planning System**

Carroll Community Schools and DMACC have teamed up to gain access to a free career planning system that is without a doubt the best program we have used. This will replace College View and Choices that we have used in the past. I encourage all teachers and parents to log onto this program and see the benefits it provides.

To use the program follow these steps:

- 1) Log onto [www.dmacc.kuder.com](http://www.dmacc.kuder.com)
- 2) **For students:** The first time you use this program, click on “new user”. Fill out all the information. Towards the bottom of the information page it asks for a school access code. This code is 10308
- 3) You can explore all the options available on the left hand side. There are numerous choices. To access all choices you must first log onto one of the three assessments. You do not need to complete an assessment, just log on and then all options will be available.
  - a) My Profile
  - b) Take an assessment
  - c) Assessment results
  - d) Plan for the Future
  - e) Explore careers
  - f) Choose a Major
  - g) Select a College
  - h) Find Financial Aid
  - i) Get a Job
- 4) If you wish to take an assessment you have 3 options:
  - a) Kuder Career Search Inventory – the program will ask for a “batch code” – it is I697827CNW (that is an “i” not the number 1).
  - b) Kuder Skills Assessment – batch code number s697826JDK
  - c) Super’s Work Values – batch code number v697828WHW.
