

Dream Vacation Project

Technology Competencies Grade 4-8:

III. Productivity Tools

- Use technology tools (scanner, digital cameras, multimedia authoring, web tools) for writing, communication, and publishing.
- Create a multimedia presentation including background, text, graphics, and special effects complimentary to the content.

V. Research Tools

- Use technology resources (online databases, resources, and CD ROMS) to gather information.

Objectives:

Student will persuade audience to visit his/her dream vacation spot with the use of iMovie HD and Garageband. Students will research three points of interest, interesting facts, and expenses for the vacation.

Task:

- 1) With the use of two-column notes research **at least three major points of interest** for the vacation spot. For example: scuba driving, hiking, exotic foods, etc.
- 2) Interesting facts about the region, culture, government, etc.
- 3) Expenses- transportation, boarding, food, souvenirs.
- 4) Colorful images or photographs
****OPTIONAL:** Bring in photos to scan
- 5) Create iMovie project (titles, transitions, video effects, voice narrations)
****OPTIONAL:** Bring CD-RW to burn iMovie project

Assessment:
